At Champlain College, we believe that the success of your agency is enhanced when your employees have access to relevant knowledge and skills.

That's why we created truED.

truED is a remarkable opportunity for your employees to earn a certificate, bachelor's or master's degree in programs that closely align with mission-critical and high-risk skills areas. In addition, the unique truED subscription model offers affordable monthly payments that make the education even more attainable.

truED offers federal employees online access to a nationally acclaimed education for 70% less than our standard tuition.

And, because Champlain College offers a true higher education experience, students learn the critical thinking, problem solving and communication skills that enhance their value to your agency.

NATIONALLY RECOGNIZED AND REGIONALLY ACCREDITED Champlain College is consistently ranked by *US News & World Report* and *The Princeton Review* as a leader in higher education. Numerous academic programs at Champlain College are recognized by leading organizations each year for their quality, innovation and affordability. Champlain College is regionally accredited, which ensures that standards of academic quality are being met or exceeded.

Employees choose a subscription based on their needs that earns them a certificate or degree through affordable monthly payments.

At Champlain College, we get to know your employees and work hard to ensure they get all of the credit they deserve—up to 90 credits—for their on-the-job training, industry certifications, prior academic courses, military experience and more. We make their personal education goals our priority, and an entire team at Champlain College will help make those goals achievable.
