PART 5: IMPLICATIONS

Your signature indicates that you have considered the following implications prior to withdrawing from any course and understand the consequences.

GPA: The grade of "W" will not affect your GPA.

Degree Requirements: If the course from which you withdraw is a required course—or if it is a prerequisite for a course you intend to take next semester—please discuss with your faculty advisor your plan for retaking this course.

Core Requirements: You must complete your current level of Core before you are allowed to move to the next level (i.e., Core 100s must be finished before you may attempt Core 200s). If you are withdrawing from a Core course, you must speak with an Academic Specialist, Perry 322, and have a plan for retaking the course prior to withdrawal.

Course Load: Students taking more than 33 credits during any academic year will be charged for the extra credit hours. The course from which you withdraw counts toward this total.

Enrollment Status: If your status changes from full time to part time as a result of withdrawing from this course, consider carefully how the change may impact your financial aid, health insurance, and on-campus housing.

International Students: You must be enrolled full time to maintain your immigration status. Please consult with the Office of International Education in Skiff Hall before withdrawing from any course.

Military-connected Students: If you are using VA or military benefits, you must notify the Director of Military and Veteran Services (located in Perry Hall, Rm. 222) before withdrawing from any course.
