It's about your passion—finding it, focusing it and nurturing it by creating academic, professional and personal opportunities for growth.

Whether you are looking to transfer to Champlain knowing exactly what you’d like to do, or whether you are looking to explore your possibilities, Champlain’s career-focused education will give you what you need to begin opening the doors to your success.
It’s Your New Life.
Begin It Here.

At Champlain College, your future is fresh. You’ll gain hands-on experience in your field, career-ready competencies and leadership skills. You’ll be nurtured, stimulated and challenged by our faculty. And you’ll emerge prepared to manage your life and guide your career.

In This Guide, You’ll Learn About

- Our academic programs
- What Burlington offers
- Champlain’s transfer process (transferring credits, financial aid)
- The Summer Bridge Program for transfer students
- New Student Orientation
- Campus housing & dining
- Planning a campus visit

As You Explore Champlain, Keep in Mind

- U.S. News & World Report’s number one “Up-and-Comer” regional college in the North in the 2014 edition of America’s Best Colleges
- The awesome college town of Burlington is included in Golocalprov’s best cities in New England for 2013

“Everything that this school has to offer has made my college experience something that I will never forget. And, having been at two other schools, I realize how great Champlain is in comparison.”

—A. Zemany, Game Art & Animation Major, Class of ’15, Saranac Lake, NY
WHY TRANSFER TO CHAMPLAIN?

Champlain gives you the tools to be an original, to be creative, to take control of your own destiny. We’re committed to teaching you the skills you need to launch your career and excel at your passion. You’ll graduate ready for real life.

We provide the kind of programs, class-size, support structure and lifestyle that attract a broad range of transfer students from across the country. Each year about 50 new transfer students from four-year and two-year colleges and universities start classes for the spring term; another 100 arrive in the fall.

AWARD-WINNING INSTITUTION
In addition to other honors Champlain College has received, we’ve been included in The Princeton Review’s “Best 378 Colleges: 2014 Edition” and included in U.S. News & World Report’s “America’s Best Colleges 2014.” Champlain is also recognized in The Princeton Review’s “Guide to 322 Green Colleges: 2012 Edition” for its sustainable features.

CAREER-FOCUSED MAJORS
Our majors link directly to the professions with the greatest potential for future opportunities. Should you transfer to Champlain College, you will receive an unparalleled education in your field. Whether your career goal is running a company, developing the next great video game, leading environmental change, making films, becoming an attorney, teaching the next generation or using digital forensics to solve crimes, Champlain’s distinctive professional programs and experience-based approach to learning have been devised to give you what it takes to become a leader in your field.

“The atmosphere at Champlain College is unlike any other. I interact with all of my professors in and out of class on a daily basis, as well as with the dean of our Business Division and other administrators.”

—Transfer Student
Nick Caruso, ‘13
Business Administration,
Fairfield, CT
SUCCESSFUL GRADUATES

Of the surveyed class of 2012 employed graduates, **88%** had secured employment related to their career goals within 1 year after graduating.

- **31%** had already been promoted since hired by their current employer
- **84%** agreed that in comparison with recently graduated peers and coworkers, the career education they received at Champlain prepared them well for job success
- **60%** attributed their success to a Champlain resource such as a career event, job posting or faculty referral

CLASS OF 2013 PRELIMINARY SURVEY RESULTS

**71%** of seniors had an internship or job relevant to their career goals within the year **before** graduating.

**46%** of seniors had landed jobs by the time they graduated in May of **2013**.

THE HUMAN TOUCH

Champlain is highly regarded for its “human touch”—for the extraordinary level of personal service and advisement students have available to them. Transfer students often mention how much they benefit from Champlain’s accessible and responsive faculty, guidance from resident assistants and superb personal service from staff. Here you have direct access to faculty members who have been often commended for their above-and-beyond responsiveness and championing of their students’ academic and professional development.

A COMPLETE EDUCATION

In addition to career-focused courses, all Champlain undergraduates take our renowned Core curriculum. Champlain’s distinguished Core curriculum supplements students’ professionally focused courses. In Core classes, you’ll study the world from an interdisciplinary approach to gain a well-rounded education. Classes have been designed based on feedback from employers who value sharp critical and creative thinking, communication skills, the ability to work in groups, global awareness and other skills that Core classes help you develop. Along with the Core, the LEAD (Life Experience & Action Dimension) program will guide you on financial issues, career management, community involvement and leadership abilities.

CARING FACULTY

The Champlain College faculty is distinguished partly by its unusual level of interaction with, and support for, students. You’ll see your professors all over campus, they’ll respond to your emails, they’ll listen to your concerns—about academics or personal issues. You’ll benefit from the highly collaborative learning that is a Champlain hallmark. Our faculty members are focused on your success and your dreams, and though they’re demanding, they’re also your biggest fans.
SMALL CLASS SIZES
We want our students to emerge as leaders in their respective professional fields. To this end, we provide a high level of personal interaction in the classroom. Champlain’s small classes encourage 1:1 and small group learning. You will find that our faculty members will not be satisfied simply to know your name and major. They will want to know you.

A GLOBAL EDUCATION
We encourage all students to study outside the United States for at least one semester to expand their perspectives. Students rave about our campuses abroad, Champlain College Montreal and Champlain College Dublin, and you can study internationally without losing any credits. Champlain has broadened its reach through new partnerships with universities in Argentina, China, New Zealand and Morocco to provide more options for your overseas education.

HIGH LEVELS OF ACADEMIC & CAREER SUPPORT
Champlain focuses on our students’ success all along the way—from the time you arrive on campus until long after you graduate. Our Career Services Office provides extensive guidance and programming for job preparation and professional development. The college’s overall job placement rate for students who find work within their field of study is nearly 88 percent. And 99 percent of our Accounting majors have full-time positions in the field before they graduate.

Recently ranked by Kiplinger’s Personal Finance magazine as the #2 on its list of “Great Places to Live,” Burlington, Vermont, is one of the best-known “College Towns” in the United States. In addition to Champlain College, Burlington boasts four other higher education institutions, and students represent a quarter of the city’s total population. Clearly, Burlington is a smart, hip and happening city.

Only a five-minute walk from the Champlain College campus, downtown Burlington’s epicenter is the Church Street Marketplace—an outdoor pedestrian mall. The Marketplace highlights include shopping (from local clothiers, bookstores and jewelers to national retailers including Banana Republic, Eddie Bauer and Macy’s), dining (from pizza and coffee houses to cafes and restaurants) and entertainment (from music and museums to theatre and art galleries).

There’s a whole world of entertainment in and around the city, which truly offers the best of everything from a stellar downtown urban atmosphere to its close proximity to some of the best outdoor sports terrain in the world.

On campus there are hundreds of events, activities, clubs and opportunities for recreation throughout the school year.

Most of our transfer students live in modern student housing that offers them apartment-style living. Suites are complete with full kitchens, private bedrooms, large living rooms and many other amenities.

It’s a wonderful life.
With the help of her advisor, business professor Scott Baker, Veronica designed a specialization in professional photography. “I can still do what I love, but with a business background,” says Veronica, who transferred credits from the photography classes she took at the university to create the specialization.

When she graduates, Veronica plans to launch a photography business, and says Champlain is giving her the perfect foundation to be successful. “I already feel I could start a business with the knowledge I’ve gotten out of just one semester,” says Veronica, of Waitsfield, Vermont. “Since I’ve been taking accounting, I know how to manage my money. And taking Business 110 has helped by showing me the different parts of a business and how they work together.”

From the start, some of the reasons she chose Champlain—personal attention from faculty and small classes—were reinforced. “It’s a lot easier with smaller classes to get the help you need from teachers,” Veronica says. “They’re willing to answer my questions outside of class and will help if I need help on a homework assignment.”

Veronica enjoyed the Summer Bridge Program for transfer students. “The fact that you can take six credits in the summer is a huge help. It saved time during the semester, so I could take more classes in my major,” she says.

“At Champlain, I’m in an environment I’m more comfortable with. I can concentrate on my schoolwork. You can always find a place to work in the library. Champlain creates a great environment to work and learn in,” Veronica says.

“I already feel I could start a business with the knowledge I’ve gotten out of just one semester.”
HOW TO TRANSFER TO CHAMPLAIN
WHAT TO DO & HOW IT WORKS

TIMING YOUR APPLICATION
Champlain has rolling admission for transfer students—we review applications for fall and spring semester continuously throughout the year. We encourage you, however, to apply as early as possible so we can send you a timely admission decision and give you plenty of time for personal and financial planning, which will ensure the smoothest possible transfer process. While we will review applications after these dates, these are the latest we recommend you apply by: November 1 for spring and July 1 for fall.

ADMISSION CRITERIA
In general, students who are accepted have a B average or higher. Consideration is given for demonstrating improved academic performance over time. Our goal is to ensure that each student has the capacity to succeed in college-level work and the unique Champlain curriculum. Each application is given a full review, and individual circumstances can be discussed with the Transfer Admissions Manager.

ONLINE & CONTINUING PROFESSIONAL STUDIES OPTION
If you’re older than 23 and want an online or hybrid learning environment, Champlain’s Division of Online & Continuing Education may be exactly what you need. Champlain’s Division of Online & Continuing Education offers undergraduate programs in business, technology and healthcare. For more information, call 888-545-3459 or contact at cps@champlain.edu.

TRANSFER STUDENT APPLICATION CHECKLIST

- Common Application for Transfer Students or Champlain Transfer Application
- Official high school transcript or GED
- Official college transcript from all institutions attended
- SAT or ACT scores (optional, but suggested)
- TOEFL or IELTS (if English is not your first language)
- Letters of recommendation (optional, but suggested)
- Portfolio required for students who apply to programs for Filmmaking, Creative Media, Game Art & Animation, Game Design, Graphic Design & Digital Media and Professional Writing. For more information on portfolio requirements, visit: champlain.edu/portfolio

PLEASE NOTE: While Champlain College does not require the College Official’s Report from the Common Application, we ask that you complete the section that includes which college courses you are now enrolled in or plan to enroll in for the current semester. This is important because once you’re admitted, an academic advisor will assign the class schedule for your first semester at Champlain based on your Transfer Evaluation. If your Transfer Evaluation does not include your current courses, it could result in a course overlap in your first semester at Champlain.
HOW TRANSFER CREDITS WORK
UNDERSTANDING THE PROCESS

YOUR CHAMPLAIN GPA
Credit hours for transferred courses are given full equivalent credit value, but grades are not transferred to a student’s Champlain College permanent record and do not become part of a student’s cumulative grade point average at Champlain College. In short: credits transfer, but GPA does not.

TRANSFERRING YOUR CREDITS
The acceptance of transfer credits is at the sole discretion of Champlain College. To be considered for transfer credit, a course must be completed with a grade of C or higher. Courses in which a C minus or below is earned will not transfer to Champlain. When submitting your materials for review, be sure to include courses in which you are currently enrolled.

YOUR PERSONAL TRANSFER EVALUATION
Upon being accepted to Champlain College, you will receive a Letter of Acceptance along with your Transfer Evaluation. The evaluation includes a list of transferable classes and credits indicating how they apply to your Champlain College degree program.

CREDITS IN YOUR MAJOR:
If you’ve taken courses at your previous institution that are comparable to required courses in your major at Champlain, the credits will be applied toward your professional program requirements.

CREDITS FOR THE CORE REQUIREMENT.
Champlain’s Core courses are sequential. Credits for Core courses for the second year are transferable from other institutions by permission. The Summer Bridge Program allows students with 12 or more transferable credits to satisfy the first-year Core requirement (for more information on Summer Bridge, see page 26).

CREDITS FOR ELECTIVES.
You may still receive transfer credit for courses that don’t fit into requirements for your Champlain major if they meet a science, math or elective requirement. These courses will be itemized on your Transfer Evaluation. In addition, all majors contain at least six credits of general electives.

SUBMITTING YOUR FINAL TRANSCRIPT
Once you complete your last semester at your current college, please request that a final, official transcript be sent to the Office of Admissions at Champlain College. That’s the only way to earn credit at Champlain for these courses.

“Champlain eases you into the transfer process without making you feel like an outsider. I haven’t been here long, and it feels like I started my college career here years ago.”

—Transfer Student Maeve Zimmer, Communication Major, Class of ’15, Fairfield, CT
Eighty-five percent of students at Champlain College receive scholarships to help with their educational costs. To be considered for all available funds—both merit- and need-based—we encourage applicants to complete a FAFSA (Free Application for Federal Student Aid) at fafsa.gov.

Students who have already filed their FAFSA for the academic year can add Champlain in the school section by visiting fafsa.gov and submitting a FAFSA correction.

**WHAT YOU SHOULD KNOW**

The priority filing date for transfer students who apply for financial aid is March 1 for the fall semester and Oct. 1 for the spring semester. Applicants who apply after these dates will be awarded on a rolling basis.

If you complete your FAFSA in tandem with your admissions application, you’ll be notified of your financial aid award sooner.

For more information on financial aid and payment options for transfer students, contact the Champlain College Enrollment Services Center at 802.860.2777 or finaid@champlain.edu.

**HELPFUL WEB RESOURCES**

Common Application: commonapp.org
Scholarship Information: fastweb.com
Megh Shah knew he was transferring into the college with the best Computer & Digital Forensics program in the country, but he didn’t know he’d love Burlington, Vermont so much that he’d never want to leave.

It was a good sign to Megh Shah that Champlain Digital Forensics professor Jonathan Rajewski fielded multiple phone calls from him with questions about the program—before Megh even applied. An even better sign was that a transfer admissions staff member helped him find a job on campus—before he started.

That made Megh’s choice seem all the more solid when he transferred to Champlain from a community college in his hometown of Philadelphia.

He was already convinced about Champlain on one front. “It has the nation’s best Computer & Digital Forensics program with the best professionals in the field teaching us,” he says. “The small classroom size allows a better faculty-student interaction. And it’s great to study with professionals who use the tools and software in real life.”

Megh uses the most up-to-date software—Encase and FTK—in his classes. “I like the hands-on aspect, the real work experience you get in your classroom. That helps students master the skills before being in the field,” he says.

For Megh, it’s the right location, too. “Burlington is a great place to live if you like living in a city and also like the silence sometimes. The best part is it’s filled with college students,” he says. “Burlington feels like home.”

His future is tied to Burlington, where he wants to work after graduation. “The Champlain name is so good that the job prospects are very good. I think Champlain is the best decision I ever made,” Megh says.

“It (the Summer Bridge Program) was the best way to transition into Champlain. It gives a taste of what it’s like.”
AFTER YOU’VE BEEN ACCEPTED

SUBMIT YOUR DEPOSIT TO RESERVE YOUR PLACE
If you plan to enroll at Champlain, it’s important to reserve your spot in the upcoming class as soon as possible by submitting your tuition and housing deposits ($400 for each deposit) either online or through the U.S. mail.

TO SUBMIT DEPOSITS ONLINE:
https://secure.champlain.edu/deposit

TO SUBMIT DEPOSITS THROUGH THE MAIL:
Champlain College Office of Admissions
161 South Willard Street, PO Box 670
Burlington, Vermont 05402

ONCE WE’VE RECEIVED YOUR DEPOSIT
We’ll schedule all the classes for your first semester, assign you to student housing, and set up your WebAdvisor account so you can access information.

EXPRESS COURSE REGISTRATION
Once you’ve submitted your tuition and housing deposit (if you want student housing), your academic advisor will create a schedule for your first semester and register you for all your classes.

We provide this service to ensure that you get the classes you need based upon your transfer credits. Therefore, it is essential, that the Champlain Office of Admissions receives a copy of all your official college transcripts as soon as possible to make sure your class schedule has the appropriate classes and credits for your first semester. Representatives in academic planning, enrollment and registration are available to guide you.
SUMMER BRIDGE PROGRAM

We help our transfer students make a smooth transition to Champlain. We’ll give you every advantage to achieve academic success. One way we do this is with the Summer Bridge Program, a required academic transition course designed for transfer students who have earned 12 or more transferable credits (which are listed on your Transfer Evaluation).

The on-campus program is a six-week, six-credit course that begins in early July and satisfies the first year of Champlain’s interdisciplinary Core curriculum. You’ll connect with your peers, make friends and have fun in a great college town.

BENEFITS OF THE SUMMER BRIDGE PROGRAM

You’ll satisfy first-year Core requirements with COR 110/120 in only six weeks.

You will earn six required credits for a reasonable cost.

You’ll take classes between 9:00 a.m. and noon on campus—just a short walk from Lake Champlain—and have afternoons free to study, work or play.

You’ll meet other students and faculty and become familiar with Champlain’s beautiful campus.

You’ll participate in memorable activities: hiking in Vermont’s mountains, excursions in and around the city of Burlington, films and discussions led by Champlain’s resident assistants.

You’ll begin your first fall semester in the 200- or 300-level Core courses.

FIND OUT MORE ABOUT SUMMER BRIDGE

For more information, contact Shawn McElwain at mcelwain@champlain.edu, or visit champlain.edu/summer-bridge.

NEW STUDENT ORIENTATION

Champlain College welcomes students in the fall and spring with our New Student Orientation program. During orientation, many transfer students become familiar with the Champlain campus and community, meet other incoming students and connect with their academic advisor. (Participants in the Summer Bridge Program will have their own orientation before the program starts.)

Orientation is when most students move into student housing, and many new students come to campus to:

- Complete health forms
- Obtain parking passes
- Get a student ID
- Buy textbooks in the college bookstore

For more information, visit champlain.edu/orientation.
LIFE AT CHAMPLAIN

HOUSING ASSIGNMENTS AT SPINNER PLACE & QUARRY HILL

A few weeks before the start of the term, you can check your housing assignment through our online portal WebAdvisor. All information about housing is available online—assignments are not mailed.

Some transfer students choose off-campus, non-student housing. Most, however, live minutes from campus at Spinner Place or Quarry Hill, which offer the independence of apartments with the services and amenities of all Champlain College residence halls. Champlain’s shuttle bus to campus runs from morning to night from Spinner Place and Quarry Hill.

At Spinner, about 300 students live on four floors of suite-style apartments, which have full kitchens (although you may participate in the College’s meal plan). Laundry facilities are on alternating floors. You’ll have a private bedroom with a single bed, dresser, chair and desk. The living room includes a couch, table, lounge chair and TV stand.

At Quarry Hill, about 125 students live on three floors in furnished suites that include two double bedrooms, one or two bathrooms, a living room and kitchen. You may make your own meals in your kitchen or participate in the campus meal plan.

Members of Champlain’s Residential Life staff live at Spinner and Quarry Hill.

FOR MORE INFORMATION about housing assignments, contact the Residential Life team at reslife@champlain.edu.
ON-CAMPUS DINING
Campus Dining Services, located across from the bookstore in the IDX Student Life Center, is open to all students. Residential students participate in the College meal plan and present their ID card to the cashier. Others may pay cash or buy meal plans or blocks of meals.

Meals are served in seven stations in this state-of-the-art facility, which offers a diverse mix of pizza, grill fare, plated entrées and specialty salads. Students are encouraged to interact with the chefs who prepare their meals. Sodexo Campus Services accommodates all dietary needs.

FOR MORE INFORMATION, visit champlain.edu/dining-services.html

ACTIVITIES & PROGRAMS
Hundreds of activities and programs are available on and off campus, as varied as:

- Yoga Classes
- Theater Productions
- Clubs
- Intramural Sports
- Concerts, Dances and Movies
- Poetry Readings
- An Indoor Rock Climbing Center

The hub of the fun stuff is Champlain’s IDX Student Life Center, which houses a gymnasium, fitness center, dining hall, student lounge with fireplace and big-screen TV, game room and an outdoor terrace with wonderful views of Lake Champlain and the Adirondacks.
PLAN A CAMPUS VISIT:
CHAMPLAIN.EDU/VISIT

Weekend information sessions are held year-round on selected Saturdays at 10:30 a.m. Each session, led by an admissions counselor, covers academics, campus life and the admission process. A student-led tour of about an hour and 15 minutes follows the session.

If you want to visit, attend a class, or meet with a faculty member or the transfer adviser, please contact the Office of Admissions at least two weeks before the desired date. We can also coordinate a webinar or phone meeting at your request. For more information, call 800.570.5858 or email admission@champlain.edu.

As a transfer student, you’ll have questions about campus life. We suggest you register on our Facebook page, where new Champlain students interact with faculty, staff and current students. Ask questions, find out about events on campus, or become friends with other students who have recently transferred to Champlain College. When you register, be sure to check the box requesting access to the admitted student area.

FOR MORE ABOUT TRANSFERRING: champlain.edu/transfer

On our website’s transfer student pages, you’ll find frequently asked questions as well as links to application forms and other resources.

ABOUT CHAMPLAIN COLLEGE

CHARACTER: Champlain College—a private college established in 1878—is a national leader in preparing passionate students for rewarding careers and successful lives.

DEGREES OFFERED: Associate of Science (AS); Bachelor of Business Administration (BSBA); Bachelor of Fine Arts (BFA); Bachelor of Science (BS); Bachelor of Social Work (BSW); Master of Business Administration (MBA); Master of Education (MEd); Master of Fine Art (MFA); Master of Science (MS)

AREAS OF STUDY: Over 80 subject areas, including undergraduate majors, minors, specializations, graduate degrees and certificate programs

MAIN CAMPUS LOCATION: Champlain’s stunning main residential campus is located in Burlington, Vermont—frequently cited in national publications and opinion polls as one of America’s Best Cities to Live in and America’s Best College Towns. Other accolades include America’s Healthiest City; one of America’s Prettiest Cities; one of America’s Best Cities for the Next Decade; and one of America’s Most Sustainable Cities, among others.

STUDENT FACULTY RATIO: 13:1

AVERAGE CLASS SIZE: 17 (maximum 30)

UPSIDE-DOWN CURRICULUM: Unique educational architecture that enables first-year students to take significant courses in their major beginning in their first semester

ENROLLMENT: 2,000 students, representing 37 states, 18 countries

MALE-TO-FEMALE RATIO: 64% male, 36% female

INTERNSHIPS: Available in all majors

NUMBER OF CLUBS & ORGANIZATIONS: Over 50

INTERNATIONAL PROGRAMS: Champlain College boasts two fully staffed academic centers in Montreal and Dublin, offering students a guided immersion study abroad experience with opportunities for internships and service learning. In addition, Champlain offers new study abroad programs for students in Shanghai, China, Ifrane, Morocco, Auckland, New Zealand and Buenos Aires, Argentina.

PERCENTAGE OF STUDENTS WHO PARTICIPATE IN STUDY ABROAD PROGRAMS: Over 50% participate in a faculty-led summer, semester or year program abroad

RECREATION & FITNESS: Full student fitness center and fitness classes; organized outings like ice and rock climbing; travel excursions; and an extensive offering of club sports including basketball, soccer, volleyball, ice hockey, rugby and lacrosse

SCHOLARSHIPS & FINANCIAL AID: Champlain College awards scholarships based on academic achievement and financial need.
