

# CHAMPLAIN COLLEGE

## Support-A-Student Scholarship

We believe that every qualified student should be able to attend Champlain College regardless of their financial circumstances. Increasing educational opportunities for deserving scholars is not just an economic imperative, but a reflection of Champlain's values.

The Support-A-Student Scholarship, made possible through your generosity, touches the lives of more than 2,000 students annually, providing vital scholarship support that can turn the idea of college into a reality. Since its creation, this fund has enabled thousands of deserving students to experience a transformational education at Champlain College.

Our distinctive approach delivers relevant, rigorous, student-centered programs that set the stage for a lifetime of career success and personal fulfillment. Carrying out this mission requires attracting and supporting talented, curious, and capable students from diverse backgrounds. In a crowded higher education marketplace, scholarship support can make the difference between a student, particularly one of modest means, attending Champlain or another institution.

**Thank you for investing in this life-changing scholarship and empowering all students to achieve their greatest potential.**

### QUICK FACTS:

In 2018, \$35 million was invested in students with financial need.

96.3% of students receive need-based scholarship support.

The average institutional grant awarded during the 2018 school year is \$15,873.

*I was accepted to all of the colleges I applied to, but after visiting Champlain, the school shot to my first choice. I found out a week later that I had received a generous financial aid package, giving me the ability to follow my passion for filmmaking at a school that encouraged my growth. I work three on-campus jobs and one off-campus, while taking 18 credit hours each semester and balancing a healthy social life and boyfriend. I would not be able to be part of such a loving, caring, and driven community without your help. Thank you!*

– Danielle Hazelton (Filmmaking)
