

## Students: Apply for the the Uganda Service Trip

Applications are now being accepted for this year's international service trip to the Malayaka House in Uganda, which is home to over 40 children. The trip will occur in mid-May for approximately 3 weeks.

Learn more at [www.champlain.edu/servicetrips](http://www.champlain.edu/servicetrips).

Apply for the Uganda Service Trip - Deadline: Nov. 25th

## Faculty: Apply to the Spring 2020 Service-Learning Faculty Fellows Program

This annual program, founded in Spring 2018, offers faculty from a range of disciplines the opportunity to explore the high-impact practice of service-learning for their own teaching. Fellows will gather 5- 6 times in the spring semester to learn about SL pedagogy, meet with community partners, hear from experienced faculty, and work to develop a community-engaged component of their courses.

We are looking for one faculty member from each Division. The application deadline is December 3rd.

Apply to the Service-Learning Faculty Fellows Program

## Champlain lands #25

Champlain College is one of the nation's most environmentally responsible colleges, according to The Princeton Review®.

The education services company features Champlain in its just-published free resource, The Princeton Review's Guide to Green Colleges: 2019 Edition. Released on October 22, the guide can be accessed at [www.princetonreview.com/green-guide](http://www.princetonreview.com/green-guide).

The Princeton Review chose the 413 schools it profiles in the guide based on a survey the company conducted in 2018–19 of administrators at hundreds of four-year colleges about their institutions' commitments to the environment and sustainability.

"We salute—and strongly recommend—Champlain to the many environmentally-minded students who want to study and live at a green college," said Rob Franek, The Princeton Review's Editor-in-Chief.

Franek noted that college applicants and their parents are increasingly concerned about the environment and sustainability issues. Among the 11,900 teens and parents The Princeton Review surveyed earlier this year for its 2019 College Hopes & Worries Survey, 64% said that having information about a college's commitment to the environment would influence their decision to apply to or attend the school." The full survey report is downloadable at [www.princetonreview.com/college-hopes-worries](http://www.princetonreview.com/college-hopes-worries).

The profiles in The Princeton Review's Guide to Green Colleges provide information about admission requirements, cost and financial aid, and student body demographics. They also include "Green Facts" about the schools, with details on such matters as the availability of transportation alternatives at the schools and the percentage of the school food budgets spent on local/organic food.

### PROJECT GREEN CHALLENGE

## Champlain leads Project Green Challenge

We are proud of our students who participated in this year's [Project Green Challenge](#). Champlain College was the **highest scoring college/university** and placed 4th out of 808 participating schools and our very own Tatum Robinson '20 Environmental Studies & Policy and Julia Leonard '20 Broadcast Media will [participate in the finals in San Francisco](#) later this month.

See an example of one of the daily challenges below, created by Julia Leonard.

## Now Accepting Applications for Spring 2020 Student Eco-Reps.

The Champlain College Eco-Reps Program trains student leaders who model and promote environmentally responsible and socially-just behaviors in the residence halls by educating their peers. This is a paid position (you do not have to be work study eligible), but you must live in a Champlain College residence hall to be an Eco-Rep. We are especially looking to hire someone living in these halls: 371 Main, North, Sanders, Bankus, South, Cushing, Adirondack, Hill, Whiting, or Bader.

Learn more and Apply to be an Eco-Rep by December 4
