

Champlain College Masters Programs

An **M.ED.** – Elementary Education is coming in the fall of 2011!

Why get a Master of Business Administration (MBA)?

A One-of-a-Kind MBA Program – *Integrated*. We believe that Champlain's MBA program is unique and exceptional among online MBA programs due to its guiding principle of **integration**. To learn more about the Champlain College MBA program, visit the link: <http://extra.champlain.edu/master/mba/>

Why get a Master of Science in Managing Innovation & Information Technology (MSMIIT)?

The Mission: Linking Classroom and Office. This innovative program offers you the depth and breadth of IT knowledge and managerial skills to become a leader virtually anywhere in your organization. And because of how the program is structured, on day one you will be able to apply what you're learning in class to what you do at work – making the benefits to your career immediate. That's one of the hallmarks of Champlain's MSMIIT: what you learn in class you can begin using the next day at work. To learn more about the Champlain College MSMIIT program, visit the link:

Why get a Master of Science in Mediation and Applied Conflict Studies (MSMACS)?

This program blends on-campus residency sessions, online learning, and practical application in the student's home community to offer one of the best mediation programs in the country today. The mediation program credits its deep roots to its early inception at Woodbury College, an institution with a rich and respected history of mediation education. Today, the program leverages that valuable history with Champlain's online savvy and wealth of career education resources to bring you the most relevant and timely mediation program offered today. To learn more about the Champlain College mediation program, visit the link: <http://extra.champlain.edu/master/msm/>

Why get a Master of Science in Digital Investigation Management (MSDIM)?

The M.S. program in Digital Investigation Management is a 42-credit graduate program designed to address the specific needs of management in the field of digital forensics, which broadly covers computer analysis and examinations, digital and cybercrime investigations, and electronic discovery and litigation support. To learn more about the Champlain College MSDIM program, visit the link:

Why get a Master of Science in Law (MSL)?

The Master of Science in Law (MSL) degree was created to help professionals who are not lawyers think and act confidently in the legal dimensions of their work, prevent needless litigation, and work productively with counsel when counsel is necessary. You'll gain legal knowledge to increase your effectiveness and advance your career. To learn more about the Champlain College MSL program, visit the link:

Why get a Master of Science in Healthcare Management (MSHM)

At Champlain College we define healthcare management, not as a general set of skills, but as an array of pertinent and practical abilities and knowledge that is intertwined with context-specific quality and process improvement, human resources, finance and information systems expertise. Courses such as Health Finance and Economics, Healthcare Information Systems, Strategic Human Resources Management, and Clinical Systems Management are examples from the curriculum that address the specific issues faced in today's healthcare management environment. Our MSHM is one of the few programs that meld content in business processes, management, healthcare, and information technology/systems to focus on the practical application of essential management tools that are immediately relevant across all components of healthcare today. Champlain College Partner Programs

Champlain College + Vermont Law School (vermontlaw.edu):

Contact: Kathy Hartman (khartman@vermontlaw.edu), Associate Dean for Enrollment Management.

The purpose of the articulation agreement with VLS is to guarantee admission into Vermont Law School's J.D. or Joint J.D./M.S.E.L. degree program to Champlain College students who successfully complete Champlain's requirements for the bachelor's degree (BA or BS) and who also meet the following entrance requirements:

- The applicant has completed 60 credits towards the bachelor's degree with a GPA calculated by LSDAS that is equal to or exceeds the average GPA of the first-year J.D. class in residents at VLS at the time of the Champlain student's application to VLS (currently around 3.22)
- The applicant has a current LSAT score (dated less than four years from the first semester of enrollment at VLS) that is equal to or exceeds the average LSAT score of the first-year J.D. class in residence at VLS at the time of the Champlain student's application to VLS (currently around 155)
- The applicant presents two letters of recommendation from Champlain College faculty, one of which is from the applicant's major field of study
- The applicant's file, from his/her tenure at Champlain and any other academic institution from which credits were earned and/or applied toward the Champlain degree, contains no evidence of character or fitness concerns that would generally disqualify the applicant from admission into Vermont Law.

Champlain College + Clarkson University ([Clarkson.edu](http://clarkson.edu)):

Contact: **Joshua Lafave** (jlafave@clarkson.edu), Associate Director of Graduate Business Programs

The Clarkson MBA program places special emphasis on developing leadership, entrepreneurial, and managerial abilities, in addition to teaching the skills that are required for success in the business world; teamwork is a central focus. Recent graduates of this MBA program have accepted positions in marketing, finance, information systems, operations management, human resources, and consulting in both small and large firms in the United States and Canada.

- **Required Foundation Courses to be taken at Champlain:** Financial Accounting, Managerial Accounting, Microeconomics, Macroeconomics, Financial Management I & II, Production/Operations Management, Statistics & Quantitative Methods, Business Law, Management and Organizational Behavior, Marketing.

- General Requirements: All Champlain College foundation courses must be completed with a grade of 'C' or better. All applicants are assumed to have a working knowledge of Calculus, from either high school or college coursework. Applicants must receive a GMAT score above the 50th percentile and have a 3.0 GPA for their junior and senior years. Students must submit an application and be reviewed for admission by the Admissions Committee at Clarkson.

Champlain College + Southern New Hampshire University

Contact: Ellen Cady (e.cady@snhu.edu), Associate Director of Admission

The MBA program is designed to prepare students for middle management and senior management positions. Full-time faculty at the Graduate School of Business offers students the best possible combination of real world experience and top-notch academic backgrounds. All full-time faculty have doctorate or appropriate terminal degree credentials. Most have extensive experience in a variety of business settings and many continue their involvement through consulting or with their own businesses. In addition, business professionals serve as community faculty, complementing the classroom experience with the immediacy of their own experiences.

- Required Foundation Courses to be taken at Champlain: Financial Accounting and/or Managerial Accounting, Microeconomics/Macroeconomics, Business Law I, Introduction to Statistics, College Algebra and Algebra & Trigonometry or College Algebra and Math in Accounting & Finance or Calculus I.
- General Requirements: Students must have an undergraduate cumulative GPA of 2.5 or better. All foundation courses must be completed with a grade of "C" or better. Champlain students who have met the admissions requirements (overall cumulative GPA of 2.5 and a 2.0 GPA in the required foundation courses) are offered unconditional admission to SNHU. They do not have to take the GMAT's.
