SUMMARY OF OPPORTUNITY

There is an undeniable energy that flows through Champlain College.

From on-campus game studios and creative media labs to online learning communities and international satellites, the College combines the courageous with the compassionate, the curious with the cutting edge. It’s rewriting the programming of higher education and giving graduates the real-world tools to soar.

Here thrive the industry disruptors and social entrepreneurs, the trailblazers and community makers, the leaders and doers of tomorrow. It’s hands on. It’s scrappy. It’s fun.
SUMMARY OF OPPORTUNITY

This is Champlain College - a proudly innovative, radically pragmatic institution in Burlington, Vermont.

The College is a close-knit community of educators and learners that provides the ideal environment and experiences for students to cultivate big ideas, achieve career success, and define a life of purpose.

The College fuels students’ passion: finding it, focusing it, and nurturing it through academic, professional, and personal opportunities. Champlain graduates flourish. They emerge from the College with the right balance of theory and practice, drawing inspiration from the classroom and developing valuable skills through direct work experience.

The institution’s history is one of constant evolution and reinvention; relentless improvement is part of its essential character. In many respects, each generation experiences a new Champlain College, running far ahead of its former self.

Champlain’s motto is Audeamus - Let Us Dare. Champlain’s transformational moments have been marked by the combination of daring vision and brilliant teamwork. Our community seeks an extraordinary leader, but not one who goes it alone. Our next President will celebrate the talent of the Champlain community, co-create a compelling vision of the future, and support a top-tier team to elevate the institution and accomplish great things. Champlain needs a leader with the drive to turn campus and community conversations into actions so that the College remains on the leading edge of higher education in the 21st century.

The next President will be a spirited and fearless leader who can marry thoughtful collaboration with a bias for action, and who can harness the community’s energy to drive progress - a dynamic communicator and energetic ambassador both on and off campus with a demonstrated skill for building relationships and securing philanthropic support - a tireless champion for diversity, equity, and inclusivity - a natural reformer who possesses both higher education foresight and an entrepreneurial spirit, with a business savvy to ensure greater financial stability in the years ahead.
INSTITUTIONAL HIGHLIGHTS

Mission & Values: Champlain College educates adaptable thinkers, daring change-makers, and inclusive innovators who shape professions and inspire communities.

Innovation: We anticipate the future and thrive in dynamic conditions.

Engaged Learning: We commit to learning so everyone does meaningful work.

Inclusivity: We practice inclusive teamwork and value diverse individual strengths.

Practicality: We provide experiential professional education.

Interconnectedness: We connect with people and places, from the local to the global.
A Spirit of Innovation

For more than 140 years, Champlain College has been carrying out its mission to prepare students for successful careers. The College began in 1878 as a co-educational business school, serving Vermont residents seeking a career-oriented business education to meet the demands of the growing manufacturing economy. From its founding, Champlain offered day classes for traditional students and evening classes for working professionals.

Champlain’s trajectory changed significantly in the 1990s when the College began offering four-year bachelor’s degrees. The College’s earliest computer-based online distance learning programs went live in 1992; today Champlain College Online hosts 3,000 plus students, many through its truED employer program, and offers a growing array of degrees and certificates in high-growth fields. The College added master’s degrees and graduate certificate programs in 2002. Over the last 20 years, the College grew its residential footprint in Burlington, and opened campuses in Montreal (2007) and Dublin (2008).

With Champlain’s unique Upside-Down Curriculum, on-campus undergraduate students are enrolled in classes in their major starting in their first semester. Online students take accelerated courses and benefit from an “appreciative” approach to advising that focuses on uncovering students’ strengths to help them achieve their goals. Both programs are taught by scholar-practitioners who care deeply about their students’ intellectual development and personal well-being. The College has consistently introduced new academic programs such as Game Design and Computer & Digital Forensics ahead of their time.

For the fifth year in a row, U.S. News & World Report has ranked Champlain College as a “Most Innovative School” in the North.
FRAMEWORK FOR CHAMPLAIN 2025

Over the last year, the campus community and the Board of Trustees have developed a strategic framework for the College’s next five years.

The framework is directional and allows for a new President to shape the vision and craft a plan for its implementation.

The framework has been designed to position the Presidential search: Who can best help the College create its new vision? How will that leader inspire the greater Champlain community to realize that promise through strategically differentiated and measurable results? →
FRAMEWORK FOR CHAMPLAIN 2025

This is a brief synopsis of the framework; a more complete version will be available to finalists.

Two Key Issues:

**STRATEGIC CHALLENGE** Champlain’s strategic challenge is to build competitive distinctiveness in demanding conditions, as the institution faces a declining traditional student population in its strongest markets and saturation of the adult student market. The College’s differentiation must boldly show the value of a Champlain education to widening audiences to continually attract and retain students.

**FINANCIAL CHALLENGE** Champlain College honors the investment in higher education of students, parents, alumni and donors. Disciplined financial plans, prudent practices, and robust advancement will increase the return on our students’ investment and sustain the broader Champlain community. The College will innovate to bolster academic excellence while reducing the time and cost of degree completion. Through financial strength, we will ensure positive impact now and sustainable results into the future.

→
FRAMEWORK FOR CHAMPLAIN 2025

Four Pillars:

**ACADEMIC AND PROFESSIONAL PURPOSE:** Champlain College commits to the educational promise and programs that will sustain the College’s ability to attract and retain students whose learning experiences distinguish them and whose achievements demonstrate the enduring value of a Champlain education.

**THRIVING STUDENTS:** Champlain College honors our students as our reason for being. When they thrive, during their Champlain education and beyond, they connect their professional aspirations with their sense of purpose in life. Thriving students navigate their academic, professional and personal journey at Champlain College through an experiential and practical education designed to activate their full potential.

**FLOURISHING COMMUNITY:** Champlain’s flourishing community is focused on thriving students and academic and professional purpose, supported by adaptive people, processes, and technology. Members of the Champlain community foster an interdependent mindset, embrace diversity, equity, and inclusion and sustainably steward resources. Processes facilitate the nimble identification of opportunities that help us flourish as we learn, design, collaborate, and innovate.

**FINANCIAL STRENGTH:** Champlain College honors the investment in higher education of students, parents, and donors. Disciplined financial plans, prudent practices, and robust advancement will increase the return of our students’ investment and sustain the broader Champlain community. The College will seek innovative models to bolster academic excellence while reducing the time and cost of degree completion.
While Champlain College is well-positioned to grow and thrive in the decade ahead, it is not immune to the headwinds facing higher education.

The next President, working with a strong leadership team, will need to address these core issues:

**DEVELOP A CLEAR AND COMPELLING VISION.** Few private higher educational institutions can match Champlain’s claim: educating traditional and adult students both on-campus with locations in the United States, Canada, and Ireland, and online, offering undergraduate and graduate degrees and certificates, and having robust partnerships with employers. However, the market requires differentiation to ensure an institution’s relevancy. This means a new leader must cast a vision that highlights Champlain’s distinctiveness and innovative spirit, captivates internal and external stakeholders, conceives of and realizes new revenue models, embraces ambiguity and risk, promotes global education, and harnesses the College’s strengths. A new leader may be faced with making difficult decisions to position the institution for future success.

**CHAMPION AND COMMUNICATE CHAMPLAIN’S ASPIRATIONS.** Since Champlain is a small and tightly knit community, consistent and clear communication is required to inspire confidence. Faculty - full-time and adjuncts, on campus and online - staff, students, Board members, donors, alumni, parents, neighbors, external community members, and others want to be engaged and valued, and expect the new President to be an effective communicator.
OPPORTUNITIES & EXPECTATIONS

**STRENGTHEN CHAMPLAIN’S FINANCIAL PROFILE.** The College enjoys financial stability as a result of careful resource management and difficult budget decisions, including a voluntary retirement program in 2019. Despite this position of financial strength, net tuition revenue has decreased in recent years. As national demographic trends create challenges for institutions of higher education, especially in the Northeast, differentiating the College’s profile to improve net tuition and diversifying revenue beyond tuition will be imperative for the next President.

**PRESS FOR EQUITY AND INCLUSIVITY THROUGHOUT THE INSTITUTION.** Although Champlain has made strides to become a more inclusive community, there is still much work to be done to attract, retain, and empower students, faculty, and staff from diverse and underrepresented backgrounds and perspectives – particularly in growing programs whose graduates will shape related professions. There is an opportunity to enhance the current institutional strategy that includes applying a diversity, equity, and inclusion lens to organizational policies, decision-making, and processes.

**EXPAND NEW STUDENT PATHWAYS.** There is a need and interest among faculty and staff to foster a stronger mutual understanding and share best practices between traditional and online programs. There is further opportunity for an innovative academic architecture that connects the traditional on-campus experience, online courses and communities, and direct experiential learning to boost student outcomes, lower education costs, and create a differentiated model that supports the College’s financial strength. ➔
OPPORTUNITIES & EXPECTATIONS

NOURISH CHAMPLAIN’S WELL-BEING. The well-being of our students and community is a cornerstone strategy. Champlain serves its purpose-driven students best when their education prioritizes direct experience, real scenarios, reflective practices, and the modeling of post-college workplaces. The College fosters student well-being through meaningful engagement, and supports resilience and persistence through inclusive, relationship-driven teaching and advising. Champlain is fueled by a commitment to create an environment where faculty, staff, and students are one learning community.

BUILD CONNECTIONS WITH CHAMPLAIN’S EXTERNAL SUPPORTERS. Burlington’s interconnectedness allows the President to develop meaningful and deep relationships with local constituencies – community, civic, business leaders, elected officials, organizations, employers, parents, alumni, and donors - that want to be part of Champlain’s success and ensure its vibrancy. The President will need to build credibility with constituencies who desire a closer relationship with Champlain, both in the Burlington area and beyond.

ELEVATE CHAMPLAIN’S PROFILE NATIONALLY AND GLOBALLY. The new President will need to raise the institution’s profile and brand, positioning the College as a thought leader, innovator, and pioneer in the minds of influencers.
CORE COMPETENCIES

This is an exceptional opportunity for an inspired, energetic, mission-driven leader to co-create vision and strategy for Champlain College as its new President.

Partnering with an engaged Board of Trustees, the President will lead Champlain College into a robust future in an increasingly complex world.

No one person can do it all. The ideal candidate will possess the right combination of these competencies - and demonstrate the ability to cultivate a team with complementary skills and experiences - to move Champlain toward a new vision.
CORE COMPETENCIES

VISIONARY AND STRATEGIC LEADERSHIP: The President will lead with enthusiasm, energy, and vision to imagine new possibilities and opportunities for Champlain College while honoring the institution’s accomplishments and successes. Working closely with the Board of Trustees, faculty, and staff, the President will bring an entrepreneurial spirit and embrace Champlain’s ethos of experimentation and innovation. This person will have a thorough understanding of the higher education landscape in the United States, especially in New England, will possess a deep knowledge of online education, and will appreciate how technology can be harnessed and deployed. This individual will also serve as a thought-partner to the Board of Trustees on strategic matters facing the College.

TURNING IDEAS INTO ACTION: The President will bring experience managing through periods of change and transformation. This individual will be a proven problem-solver who can evaluate critical areas for attention, solicit candid feedback and input, and then implement decisive, innovative strategies to address pressing challenges - and be prepared to alter those strategies if they do not achieve the goals. Comfortable with ambiguity and capable of providing stability when faced with quickly changing circumstances, the President will be able to respectfully challenge the status quo and advance new thinking. Calm under pressure, this leader will be consultative, promoting open dialogue with team members, and proactively addressing the human impacts of change.

DEMONSTRATED EXPERIENCE AS A TEAM BUILDER: In addition to visionary leadership, the President will empower faculty, staff, and students, and effectively manage a core team to achieve measurable results. The President will have a strong record of developing diverse and talented teams in complex, multifaceted organizations. The President will foster a culture of accountability, champion professional development opportunities, and mentor colleagues.
CORE COMPETENCIES

CHAMPION FOR DIVERSITY, EQUITY, AND INCLUSION: The President must be a proven leader for diversity, equity, and inclusivity at all levels of the College with a demonstrated contribution to designing organizational inclusivity. The President must show an ability to build and develop a team who sees its own blindspots, relishes rigorous debate, and inspires unity in action. As the College improves diversity, representation, and access to resources on campus, the President will need an astute awareness of how the vision and direction impacts all members of the community.

BUSINESS AND FINANCIAL ACUMEN: This individual will be conversant in the business and financial fundamentals to evaluate the College’s programs and initiatives and make sound recommendations and decisions that deliver real impact and financially sound results. The President will welcome accountability from the Board of Trustees on specific performance metrics, including net tuition revenue, applicant quality, retention, graduation rates, placement rate, budget performance, fundraising targets, and endowment growth.

EXPERTISE IN REVENUE GENERATION AND FUNDRAISING: The President will demonstrate measurable results in fundraising with the expertise and mindset to build new revenue pipelines and to cultivate, solicit, and steward donors and Board members. This leader will have knowledge and expertise with various fundraising and communication channels, and the ability to engage with all of Champlain College’s constituents, including prospective families, alumni, and partner organizations, alongside existing donors and Burlington community leaders. The next President will have experience exploring new revenue models and starting new initiatives and programs that diversify revenue in an entrepreneurial and creative manner.

AN ADVOCATE FOR ACADEMIC EXCELLENCE: While there is a preference for the new President to have a terminal degree, most important is that the President must possess experience in higher education and a passion for the mission and community of Champlain College. The President must appreciate the contributions of both full-time and part-time faculty and promote academic excellence across the various and diverse undergraduate and graduate degrees and certificates.
CORE COMPETENCIES

A GLOBAL MINDSET: With campuses in Montreal and Dublin, nearly 50 percent of traditional students studying abroad, and Champlain College Online educating many students outside of the United States, the new President needs to appreciate and promote the value of international education in all its forms.

RELATIONSHIP BUILDING, COLLABORATION AND PARTNERSHIPS: The President will be a natural and eager communicator with an empathic ability to listen, connect, build rapport, and forge meaningful relationships with the broader Champlain community. The President will be the primary ambassador for the College, confidently conveying Champlain’s story and building its brand nationally and internationally. The President will have an exceptional ability to communicate with all audiences, and be able to speak confidently about Champlain’s history, impact, and future direction.

SELF-AWARE AND ACCESSIBLE: Mature, emotionally aware, and reflective, the President will be approachable and accessible. The person will demonstrate an ability to take a genuine interest in stakeholder impressions and experiences of the institution. The President will actively seek feedback, exercise humility to incorporate constructive inputs, and demonstrate resilience when encountering setbacks and criticism. The President will eagerly seek out all voices, adventurously explore unfamiliar perspectives, and courageously create Champlain’s inspired future.
ABOUT CHAMPLAIN

Founded in 1878, Champlain College is a small, not-for-profit, private college overlooking Lake Champlain and Burlington, Vermont, with additional campuses in Montreal, Canada, and Dublin, Ireland.

Champlain offers: 30 Undergraduate Degrees, 15 Online Associate and Bachelor’s Degree programs, and more than 25 Online Undergraduate Certificates in business, technology, and health care, and 24 Online and On-Campus Graduate Degrees and Certificates focused on advancing professional expertise.
ABOUT CHAMPLAIN: ON-CAMPUS ACADEMIC PROGRAMS

Champlain’s unique academic approach for on-campus students encompasses the career, academic, and practical knowledge graduates need to grow personally and professionally and thrive in an ever-changing world. Champlain is a teaching-focused college and faculty are well known for their close connection with their students in the classroom and in support of them through advising, internship development, and career preparation.

PROFESSIONAL MAJORS: Our professionally focused curriculum puts students in classes in their major starting in their first semester. Specializations, minors, and co-curricular activities allow students to tailor their educational experience to meet specific career and personal goals.

INTERDISCIPLINARY CORE: Our innovative liberal arts curriculum teaches students to think critically and to communicate effectively. The interdisciplinary curriculum across all four years encourages the type of intellectual discipline and creative thinking that develops a lifelong aptitude for learning and problem-solving in any context. Graduates leave Champlain not just as experts in their chosen field, but with the skills and experience to be thoughtful leaders in the professional world.

INSIGHT PROGRAM: CAREER AND PERSONAL FINANCE: Our comprehensive career and personal finance education is a non-credit bearing required co-curricular program that supports the transition from the undergraduate experience to the workforce. Practical, hands-on learning helps students articulate a personal value proposition to employers (what is your elevator pitch?) and develop essential skills in personal finance (what is the cost of living in the city of your dream job?).

CENTERS OF EXPERIENCE: Our collaborative learning environments provide students with experiential learning that guides them in practical application of classroom learning. Champlain hosts ten Centers of Experience, ranging from the Senator Leahy Center for Digital Forensics & Cybersecurity to the Center for Financial Literacy and the Emergent Media Center. Within these Centers, Champlain students work alongside faculty and industry professionals to turn theory into practice for real-world clients.
ABOUT CHAMPLAIN: ON-CAMPUS ACADEMIC PROGRAMS

STUDENT CAREER SUCCESS: Champlain is deeply committed to providing an excellent and comprehensive career-oriented educational experience for its on-campus students. Champlain’s Career Collaborative is the ultimate career and employer resource. Its team of professional career coaches work with students to create individualized career strategies and connect students with practical, hands-on, relevant professionally focused learning opportunities.

Critical areas for enhancing student belonging and experiential learning include the Office of Diversity & Inclusion, International Student Services and the Women’s & Gender Center.

ABOUT CHAMPLAIN: ONLINE ACADEMIC PROGRAMS

Champlain College established one of the first online degree and certificate programs to meet the needs of working professional students in 1992. Since then, Champlain College Online (CCO) has continued to evolve and now offers more than 60 nationally acclaimed programs in a flexible online format. CCO has experienced 300% growth over the past five years and educates 3,000+ individuals from all 50 states. CCO faculty and staff are guided by empowering adults, ensuring a high-quality academic experience, reducing student debt, and getting students to degree and certificate completion.

As part of the truED Alliance initiative, CCO has developed partnerships with employers such as AT&T, Ben & Jerry’s, Big Y Foods, Burton Snowboards, Cisco, Comcast, Green Mountain Power, Fidelity Investments, MetLife, and the Vermont National Guard. Champlain was one of the federal government’s first higher education partners to offer public servants access to affordable online education. truED employers give employees and eligible family members access to over 60 online career-focused programs for a significant tuition discount.

ABOUT CHAMPLAIN: CAMPUS AND FACILITIES

Over the last decade, the College has added new buildings to enhance the academic and residential experience at Champlain in line with the Master Plan, which was created in 2007 in partnership with the community. Within the last five years, the College built the Communication and Creative Media academic center on its main campus and 194 St. Paul Street residence hall in downtown Burlington - both of which were completed on time and under budget and are rated by Green Globes. The Master Plan identifies opportunities for a few additional projects, but the College is not currently engaged in significant construction or renovation at this time.

Champlain’s physical footprint includes 20 beautifully restored Victorian-era mansions which serve as homes for our first-year students, as well as contemporary and apartment-style residence halls for our upper class students. Five of the College’s building’s are LEED certified and seven are heated and cooled by geothermal systems. Champlain also has a three-story building in the South End of Burlington, which houses Champlain College Online, the Senator Leahy Center for Digital Forensics & Cybersecurity, the Emergent Media Center, and many of the College’s administrative functions. The College also has thriving study-abroad programs with international campuses in Dublin and Montreal.
ABOUT CHAMPLAIN: LOCATION

Champlain College’s 27-acre main campus is a stunning mix of historic buildings and modern structures nestled in the tree-lined Hill Section residential neighborhood of Burlington. Located just up the hill from the city’s downtown area and Lake Champlain, at the edge of Vermont’s Green Mountains, and within sight of New York’s Adirondack Mountains, the area is a natural playground for enthusiasts who enjoy boating, skiing, snowboarding, hiking, mountain biking, rock climbing, and other outdoor recreation activities.

Burlington, which consistently ranks as one of the best places to live and work in the United States, one of the nation’s best college towns, and as one of the nation’s safest cities, bustles with activity and intellectual stimulation year-round. Livability.com ranked Burlington as the 24th best place to live in the United States. In 2014, Burlington became the first city in the nation to source 100% of its electricity from renewable generation.

Birthplace of socially responsible business icons such as Seventh Generation, Magic Hat Brewing Company, and Ben & Jerry’s, Burlington has an entrepreneurial tradition of social activism, volunteerism, and environmental stewardship that reflects the community’s deeply held belief in public service and sustainability. Burlington-based businesses like Dealer.com and MyWebGrocer are innovative, growing companies that partner regularly with Champlain to hire student interns and new graduates.

Radiating from downtown’s pedestrian mall are shops of all kinds and the restaurants at the center of Vermont’s heralded local food movement, which serve their creative cuisine against a constant backdrop of concerts, cultural events, art shows, street fairs, and other happenings.

Burlington, Vermont is located 90 minutes south of Montreal, almost four hours from Boston, and five hours from New York City.
ABOUT CHAMPLAIN: GOVERNANCE, FINANCIALS, & FUNDRAISING

Champlain College is a Vermont nonprofit corporation led by a supportive and engaged Board of Trustees. The maximum number of Trustees allowed is 34 and must include two recent alumni. The Board’s charge is to set the overall strategic direction for Champlain College, and to ensure that the College systematically works toward its stated goals in a financially responsible manner. In addition to their work as a committee of the whole, the Trustees conduct their work in part through various committees: Executive, Compensation, Trusteeship, Audit Compliance, and Risk Management, Student Experience, Financial Sustainability, and Advancement. Currently, there is an ad hoc Presidential Search committee with representatives from a diverse group of stakeholders.

The President of Champlain College is responsible for leading and directing overall strategy and operations for the College, including academic affairs, business operations, resource acquisitions, and other activities of the College. The President is assisted by a Cabinet leadership team.

The College has a Faculty Senate and a Staff Council. The faculty play a central role in developing and revising curriculum and teaching methods to ensure that they are current with and meet the needs of the ever-evolving marketplace. While there is no tenure system for full-time faculty, faculty hold traditional academic rank with multi-year contract terms determined by rank after the contract year. In a similar fashion, the staff continually seek new methods for improving the efficiency and effectiveness of College departments. A distinctive aspect of Champlain’s culture is the extent of collaboration, collegiality, and shared activity among the College’s faculty and staff.
ABOUT CHAMPLAIN: GOVERNANCE, FINANCIALS, & FUNDRAISING

The College’s FY20 budget is $92 million. The College has a commitment to fiscal discipline and has made difficult decisions to achieve strong financial results. The College has had budget surpluses during the last five years; for FY19, the surplus was $1.2 million. The College spent over $36 million in financial aid. Endowment is approximately valued at $55 million, and the College raised just over $2 million in FY19.

The College is a member of the Green Mountain Higher Education Consortium (GMHEC), a partnership endeavor of three Vermont colleges: Champlain, St. Michael’s College, and Middlebury. The GMHEC (www.gmhec.org) formed in 2013 as an effort to foster collaboration among its members to improve services, create efficiencies, and reduce costs for students, faculty, and staff.
SEARCH TEAM

Champlain College has retained the services of Diversified Search and Koya Leadership Partners. Nominations and applications will be accepted until the position is filled, but for fullest consideration, applications should be received by November 30, 2019. Applications and expressions of interest should be accompanied by a cover letter and a resume. Cover letters should address how the candidate’s experience and qualifications have prepared them for the role. Materials should be submitted electronically in confidence to ChamplainPresident@divsearch.com.

Fiske Guide to Colleges 2020 recognizes Champlain as one of the “Best and Most Interesting Schools” in the United States, Canada, and Great Britain.

Champlain is included in The Princeton Review’s “The Best 385 Colleges” and “Best Northeastern” colleges in 2020.

Champlain is a College of Distinction 2020 for its “Engaged Students, Great Teaching, Vibrant Community, and Successful Outcomes.”

The Atlantic also featured Champlain as the model of an “ideal college” in an article by education expert and writer, John Tierney.
