

**Champlain College Green Revolving Fund
Annual Report 2015-2016**

Initiated in 2013, the [Champlain College Green Revolving Fund](#) (GRF) is an investment fund that finances energy efficiency, renewable energy and other sustainability projects on campus. The Fund provides capital for special projects conducted by Physical Plant that reduce environmental impact and can repay the fund with cost-savings within five to ten years. A portion of these savings are used to support a subsidiary Green Community Fund that finances smaller community-led sustainability projects which may lack monetary savings but are in clear alignment with Champlain College's sustainability objectives.

Green Revolving Fund Committee members:

Christina Erickson, Sustainability Director
Tom Bonnette, Physical Plant Director
Vikki Gauvin,
Lindsey Godwin,
Robin Collins,
Haley Parent '18,
Mike Andreula '18

Committee's Charge: to advise and manage the College's [Green Revolving Fund](#), an investment fund that finances energy efficiency, renewable energy, and other sustainability projects on campus.

In Spring 2016, we added [Funded Projects](#) page to Green Revolving Fund website.

Green Revolving Fund Projects funded in 2015-2016

The funding for these projects are a loan and will be paid back, as detailed in the [GRF guiding document](#).
