

# Accident Insurance

## How does it work?

Accident Insurance pays a set benefit amount based on the type of injury you have and the type of treatment you need. It covers accidents that occur on and off the job. And it includes a range of incidents, from common injuries to more serious events.

## Why is this coverage so valuable?

It can help you with out-of-pocket costs that your medical plan doesn't cover, like co-pays and deductibles. You'll have base coverage without medical underwriting. The cost is conveniently deducted from your paycheck.

## Who can get coverage?

You	If you're actively at work*
Your spouse	Can get coverage as long as you have purchased coverage for yourself.
Your children	Dependent children from birth until their 26th birthday, regardless of marital or student status.

<sup>\*</sup>Employees must be legally authorized to work in the United States and actively working at a U.S. location to receive coverage. See Schedule of benefits for a complete listing of what is covered.

# How much does it cost?

You	\$5.59
You and your spouse	\$9.85
You and your children	\$12.43
Family	\$16.69

## What's included?
