

VERMONT CYBER START: A HIGH SCHOOL DUAL ENROLLMENT PROGRAM

High school juniors and seniors can get a head start on college and a career in cybersecurity.

YOUR CYBERSECURITY TRAINING STARTS HERE

Vermont Cyber Start is a dual enrollment program from Champlain College, and in partnership with nuHarbor Security, that lets high school juniors and seniors take college-level cybersecurity courses online and gain valuable skills and credentials.

No technical background is required, but curiosity, a passion for solving problems and helping others, an interest in technology, and resilience can give you a firm foundation in the program.

“Cyber Start introduced me to the software I now use in my classes and helped me prepare for college classes so effectively. My advice: Do it, even if it’s a slight consideration.”
